COMPANY PROFILE

# WHO ARE WE

**Garments Maker LTD (GML)** is your end-to-end apparel sourcing partner, built on a foundation of owned operations and a trusted manufacturing network.

We are not intermediaries; we are your direct, on-the-ground team in Asia. With our own offices in Bangladesh & China for expert fabric sourcing and in Hong Kong for streamlined finance & logistics, we provide unparalleled control and transparency.

Our strength is amplified by our **curated network of specialized factories** across Bangladesh. This includes:

- High capacity, compliant facilities for major retailers
- Specialized, agile units for low MOQ and complex categories like sweaters, jackets and lingerie

This powerful structure allows us to meticulously match your order to the perfect production partner, ensuring optimal quality, cost and delivery for every project.

By integrating **design, sourcing, production and quality control** under one managed workflow, we de-risk your supply-chain and become a seamless extension of your brand.

# MISSION

We leverage our owned on-the-ground presence in Bangladesh & China to provide a seamlessly managed supply chain, guaranteeing cost efficiency, quality control and on time delivery.

Your product deserves a  
STORY, not just a supply chain.
